Baïi Seed®

Fantasy Colors™

Ball Seed® is proud to introduce **Faifasy colors™**, a new generation of spray dyes that gives the traditional poinsettia a whole new look, form and feel for your customers. **Faifasy colors™** typically work best on white, cream, apricot, light pink and marble poinsettias. This treatment greatly expands the traditional color range of poinsettias. It creates new markets, especially during the early poinsettia season, attracting clientele that might not consider selling a standard, natural poinsettia. **Faifasy colors™**, along with our glitter, attract attention, create excitement, and most importantly, provide an opportunity to raise the price point of poinsettias to a much-needed higher level. Poinsettias do not need to be a commodity anymore – they are an opportunity to generate greater profits!

The dyes come in 8 unique colors that, when sprayed on poinsettias, create an exiting effect that expands the color range of traditional poinsettias. We think that by using **Faifasy colors™**, the opportunity exists to broaden the poinsettia window, thus creating a whole new market potential for poinsettias. In addition to using poinsettias for the Christmas holiday, it opens the door to other decorating possibilities, such as:

- Halloween
- Thanksgiving
- Hannukah
- New Year's
- Anniversaries
- Birthdays
- Promotions – in store gift with purchase, sports teams (high school, college and professional) and fundraiser opportunities (High School Clubs, Boy/Girl Scouts, 4-H, Charities, etc.)

Red and pink poinsettias can also be dyed by using the more intense, darker colors. Depending on the intensity, number and type of color applications, a variety of designs can be created to complement any décor. We have included some possible combinations using **Faifasy colors™** in this booklet. However, these are only some suggestions. Feel free to have fun and use your own creativity!

Please keep in mind that you can use just one color per poinsettia variety, put a second coat on of that particular color or enhance/color-coordinate the poinsettia by using additional **Faifasy colors™** (mixing colors as per the standard color wheel). Adding ethanol as spray droplets or using ethanol for a striping pattern will give you additional variations and effects.

THE COLOR WHEEL:

The traditional color wheel has three primary colors: red, yellow and blue. In technical terms, it organizes colors by the length of their light wave (red is the longest, violet is the shortest). But for those of us who aren't astrophysicists, it's easier to think of the color wheel as a slice of the rainbow stretched into a circle or a cool device that allows people to see the relationship between colors.

PRIMARY COLORS

RED, YELLOW, BLUE

The three colors from which all other colors are made and which cannot be made from any other colors.

SECONDARY COLORS

ORANGE, GREEN, VIOLET

Obtained when two primary colors are mixed together.

.....

INTERMEDIATE COLORS

RED-ORANGE, YELLOW-ORANGE, YELLOW-GREEN, BLUE-GREEN, BLUE-VIOLET, RED-VIOLET

These colors occur when an adjoining primary and secondary color are mixed.

IMPORTANT NOTE:

These spray dyes are based on ethanol, which makes them easy to apply. It is essential that prior to application, you prepare a well-ventilated or covered area. Please consider clothing and surrounding area for over-spray, as the dye will stain. **Do not water from overhead – water at soil level or from the bottom of the pot. The dye may run and stain clothing, carpet, etc. Test on individual plants before mass application, as results may vary.**

PRODUCT FORMS AVAILABLE:

- 1) **Fantasy Colors™ Ready to Use (RTU)** – Remove cap, then attach the spray nozzle. (**IMPORTANT** – secure tightly and adjust nozzle.) 1 liter will color approx. 60-80 6-in./15-cm pots, depending on application and bract size.
- 2) **Fantasy Colors™ Concentrate** – Products need to be diluted with ethanol to be used in mass applications with various types of sprayers. (**IMPORTANT** – We recommend using our ethanol, as it is the same ethanol used to make our (RTU) dyes.) Mix 1 part concentrate with up to 10 parts ethanol. (5 parts is recommended – a 1:5 ratio will cover approx. 500 6-in./15-cm plants, depending on application and bract size.) If using the 1:10 ratio, 1 liter will cover approx. 800-1,000 6-in./15-cm plants, depending on application and bract size.

Colors Available (1 liter size): The following colors are available, whether you purchase **Ready to Use (RTU)** or **Concentrate**:

- **Apricot**
- **Orange**
- **Turquoise**
- **Blue**
- **Fuchsia**
- **Lilac**
- **Plum**
- **Yellow**

- 3) **Fantasy Colors™ Ethanol** – This is the same ethanol used to make our (RTU) **Fantasy Colors™** Dyes. It is used to dilute any of our 8 **Fantasy Colors™** Concentrate dyes. It enhances and creates various effects on the bracts of poinsettias, either by lightening the dyes or providing the “speckles/droplet effect” when used in conjunction with **Fantasy Colors™** RTU or Concentrate. It is available either in a 1-liter or 1-gallon unit.

- NEW**
- 4) **Fantasy Colors™ Shimmer Dye (Ready to Use)** – We have made it simple for you! Now you can purchase 4 different formulations of **Fantasy Colors™** Dyes PRE-MIXED with shimmer (**RTU form only**). The shimmer acts as a surfactant (wetting agent), enhancing the way the dye adheres to the bracts, making it a seamless process. Adding the shimmer intensifies the dyes, giving the traditional poinsettia a new look, form and feel for your customers!

HOW TO USE: Shake well before using, as the shimmer powder will settle at the bottom. Apply Shimmer Dye RTU and let it dry. Spritz on glue and apply your favorite **Fantasy Colors™** Glitters. (**IMPORTANT** – secure tightly and adjust nozzle.) 1 liter will color approx. 60-80 6-in./15-cm plants, depending on application and bract size.

Colors Available:

- **Blue**
- **Lilac**
- **Silver**
- **Gold w/Ethanol**

- 5) **Fantasy Colors™ Shimmer Powders** – This non-toxic, natural product adds an exciting look and dimension to poinsettias. The most popular shimmer powder is Gold Shimmer, which when used on poinsettias provides an elegant, gilded look to bracts and leaves. Silver Shimmer adds a silvery-white/snow effect that looks best on dark-colored poinsettias.

Colors Available:

- **Blue**
- **Silver**
- **Bronze**
- **Gold**
- **Velvet Red**
- **Copper**

6) **Fantasy Colors™ Ready to Use (RTU) Glue** – Specially formulated colorless glue/sealant is used in the commercial horticultural industry on live and dried plants. Ball Seed ready-to-use clear glue is made from a water-soluble acrylic resin compound for use with Ball Seed Glitter applications. It also provides the treated material with effective protection and preserves its natural appearance. Our 1-liter unit will cover approx. 100 6-in./15-cm plants, depending on application and bract size.

7) **Fantasy Colors™ Concentrate Glue** – The concentrate form has all the same characteristics as RTU Glue noted above. There are two formulations available: 1-Liter Concentrate or 10-Liter Concentrate.

Using 1-Liter Concentrate, mix 1 part **Fantasy Colors™ Clear Glue Concentrate** with 9 parts water, which will cover 500-600 6-in./15-cm plants. Using the 10-Liter Concentrate, mix 1 part **Fantasy Colors™ Clear Glue Concentrate** with 9 parts water, which will cover approx. 5,000-6,000 6-in./15-cm plants.

By using our specially formulated **Fantasy Colors™ Clear Glue** and applying our laser-cut octagonal glitters, you can create a whole new sparkling design for your customers. Our glitter looks especially good on naturally grown red and pink poinsettias, not to mention as an additional enhancement when used with **Fantasy Colors™** – especially the brighter colors. Make sure that the surface to be sprayed is clean and dry. Spray from a distance of approx. 10-15 in./24-35 cm from the object. Spray in short, even, back-and-forth strokes in a well-ventilated room or covered area. Immediately apply glitter if desired. Complete drying time takes approx. 10-20 minutes at 68°F/20°C. Clean spray nozzle after each use with warm water.

8) **Fantasy Colors™ Glitter** – All that glitters can be a “gold mine” when it comes to incremental sales of **Fantasy Colors™ Glitters** for your business. By using our specially formulated clear glue and laser-cut, octagonal-shaped glitters, you can create an enticing new presentation for your customers. It adds a WOW effect to your products! **Fantasy Colors™ Glitters** look particularly great on red and pink poinsettias when combined with the Fantasy Colors Dyes and Shimmer Dyes. Choose from 18 exciting colors.

Fantasy Colors™ Glitters – These come packaged either in a 500-ml plastic container or a 5-kilo bag. One 500-ml container with shaker/pouring cap will cover approx. 400-500 6-in./15-cm poinsettias. One 5-kilo bag will cover approx. 6,000-7,500 6-in./15-cm poinsettias (depending on application and bract size).

Midnight Black • Emerald Green • Dark Blue • Blush Pink • Silver Chrome • Red Regal
Turquoise • Brilliant Gold • Multi Color • Iridescent • Plum • Copper Bronze • Neon Lime Green
Neon Pink • Neon Purple • Neon Fuchsia • Neon Canary Yellow • Neon Salmon

9) **Fantasy Colors™ Snow Powder** – Who says you have to wait until winter to enjoy the beauty of snow? With Snow Powder, in a matter of minutes, you can transform your flowers, ornaments, wreaths, foliage plants, small trees, bulbs and more into your own beautiful creation.

• **Naturally safe • Flame retardant • Easy-to-use • Fast drying • Self-adhesive • Semi-permanent**

HOW DO I SNOW?

- Moisten the surface area you want to cover by misting with water.
- Sprinkle the desired area with snow.
- Let dry for approximately 2 minutes.
- Enjoy!
- Easy to clean with just soap and water.

SPECIAL NOTES REGARDING THE RECIPES THAT FOLLOW:

1. For each recipe listed below, we've suggested a poinsettia color (or colors) for you to try. Please feel free to experiment with other varieties/colors to create different effects.
2. More effects can be obtained by varying the drying time of the first application. (Complete drying time is approximately 10-20 minutes, depending on temperature and air movement.) Get creative by experimenting with different drying times, varieties, colors and the number of applications.

VARIATIONS OF BLUES

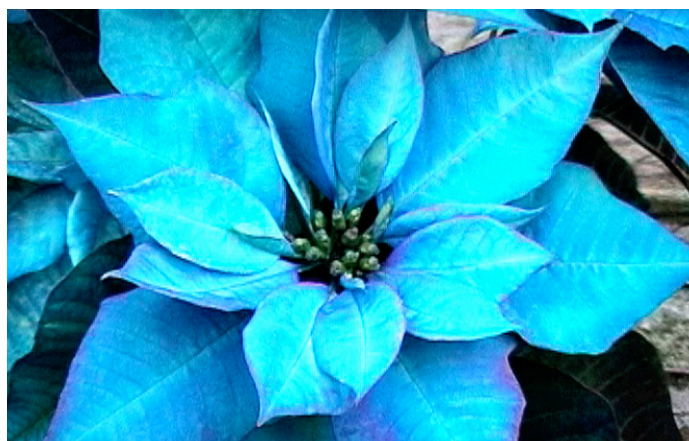

1) Fantasy "Blue Splash"

a. Products needed:

1. Suggested poinsettia color: white
2. **Fantasy Colors™** Blue
3. **Fantasy Colors™** Ethanol
4. **Fantasy Colors™** Yellow

b. Directions:

1. **Fantasy Colors™** Blue with a fine nozzle.
2. After drying, apply ethanol in large droplets from a distance of 16-30 in./ 41-76 cm. The light speckles appear within fractions of a second. By adding **Fantasy Colors™** Yellow, different shades can be created with the droplets.

2) Fantasy "Blue Ice"

a. Products needed:

1. Suggested poinsettia color: white
2. **Fantasy Colors™** Blue
3. **Fantasy Colors™** Ethanol

b. Directions:

1. Apply **Fantasy Colors™** Blue evenly.
2. After drying, apply ethanol with a fine nozzle. The dark and light coloring of the leaf structure will appear.

3) Fantasy "Blue Mist"

a. Products needed:

1. Suggested poinsettia color: white
2. **Fantasy Colors™** Blue or Lilac
3. Ethanol (only for leaf center vein)

b. Directions:

1. Apply **Fantasy Colors™** Blue or Lilac evenly.
2. Spray ethanol only at the base of the bracts from a distance of 2 in./5 cm. Then apply ethanol as a large drop at the highest point of the bract. Ethanol, together with the dissolved color, will enhance the structure of the leaf surface.

VARIATIONS OF BLUES

4) Fantasy “Frozen Blue”

a. Products needed:

1. Suggested poinsettia color: white
2. **Fantasy Colors™** Blue Shimmer
3. **Fantasy Colors™** Ethanol
4. **Fantasy Colors™** Glue
5. Suggested Glitters: Iridescent, Dark Blue or Turquoise

b. Directions:

1. Place 3 Tbsp. of Blue Shimmer in 1 litre of ethanol
2. Shake well before using. Apply Blue Shimmer mixture evenly.
3. After drying, apply **Fantasy Colors™** Glue from a distance of 10-15 in./24-35 cm from object.
4. Apply glitter.
5. Let dry for 10-20 minutes.

5) Fantasy “Blue”

a. Products needed:

1. Suggested poinsettia color: white
2. **Fantasy Colors™** Blue
3. **Fantasy Colors™** Glue
4. Suggested Glitters: Iridescent, Dark Blue, Turquoise or Silver Chrome

b. Directions:

1. Apply **Fantasy Colors™** Blue evenly as a base color on the bracts.
2. Apply **Fantasy Colors™** Glue evenly from a distance of 10-15 in./24-35 cm.
3. Apply glitter.
4. Let dry for 10-20 minutes.
5. Clean glue spray head with warm water.

6) Fantasy “Blue Lagoon”

a. Products needed:

1. Suggested poinsettia color: white
2. **Fantasy Colors™** Blue
3. **Fantasy Colors™** Yellow

b. Directions:

1. Apply **Fantasy Colors™** Blue evenly.
2. **Fantasy Colors™** Yellow should be applied in large droplets or with a cotton swab down the middle of the vein of the bract.

VARIATIONS OF ORANGES, YELLOWS & APRICOTS

7) Fantasy “Halloween”

- a. Products needed:
 1. Suggested poinsettia color: cream, marble or light pink
 2. **Fantasy Colors™** Orange
- b. Directions:
 1. Apply **Fantasy Colors™** Orange evenly on the bracts.
 2. After the first application has dried, apply a second coat or third coat for a more intense color.

8) Fantasy “Golden Melody”

- a. Products needed:
 1. Suggested poinsettia color: Glitter or Jingle Bell types
 2. **Fantasy Colors™** Yellow
 3. **Fantasy Colors™** Glue
 4. **Fantasy Colors™** Glitter Red Regal and Brilliant Gold
- b. Directions:
 1. Apply **Fantasy Colors™** Yellow evenly as a base color on the bracts.
 2. Apply **Fantasy Colors™** Glue evenly from a distance of 10-15 in./24-35 cm.
 3. Apply glitter, use a mixture of 50% Red Regal & 50% Brilliant Gold.
 4. Let dry for 10-20 minutes.
 5. Clean glue spray nozzle with warm water.

9) Fantasy “Autumn Sunset”

- a. Products needed:
 1. Suggested poinsettia color: cream, marble or light pink
 2. **Fantasy Colors™** Apricot
 3. **Fantasy Colors™** Orange
 4. **Fantasy Colors™** Yellow (creates additional shading)
- b. Directions:
 1. Apply **Fantasy Colors™** Apricot evenly to the bracts.
 2. After drying, follow up with a second application of **Fantasy Colors™** Orange.

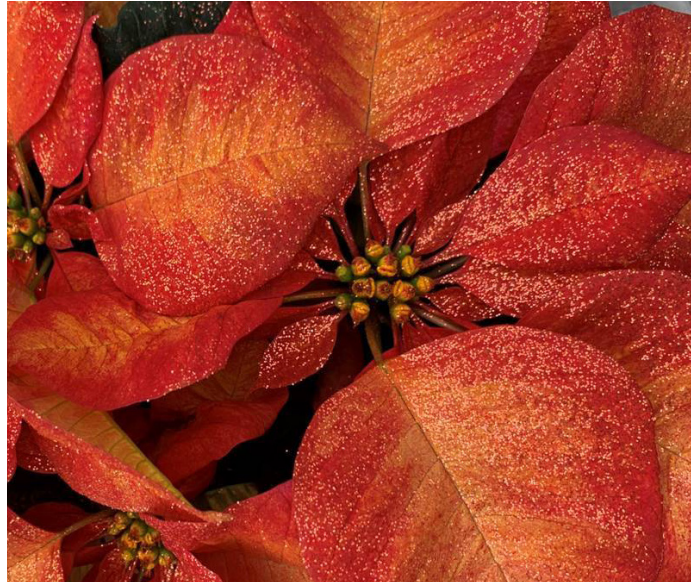

The second color application will adapt to the bract structure. With an additional application of **Fantasy Colors™** Yellow, more shades can be created.

VARIATIONS OF ORANGES, YELLOWS & APRICOTS

10) Fantasy “Autumn Joy”

- a. Products needed:
 1. Suggested poinsettia color: Picasso, Viking Cinnamon, Princess Queen
 2. **Fantasy Colors™** Yellow
 3. **Fantasy Colors™** Glue
 4. **Fantasy Colors™** Glitter Neon Salmon
- b. Directions:
 1. Apply **Fantasy Colors™** Yellow.
 2. After drying, apply **Fantasy Colors™** Glue evenly from a distance of 10-15 in./ 25-34 cm.
 3. Apply Neon Salmon glitter.

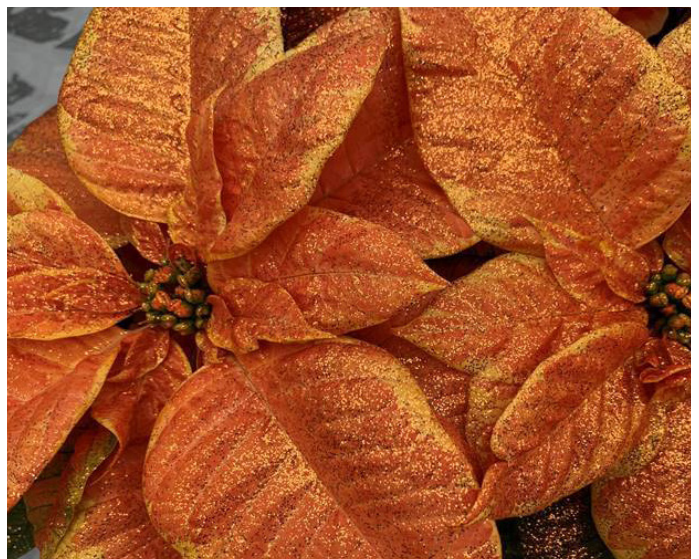

11) Fantasy “Sunburst”

- a. Products needed:
 1. Suggested poinsettia color: cream, marble or light pink
 2. **Fantasy Colors™** Yellow
 3. **Fantasy Colors™** Orange or Apricot (to be used in the middle of the bracts)
- b. Directions:
 1. Spray **Fantasy Colors™** Yellow evenly on the bracts.
 2. With large droplets or a cotton swab, apply **Fantasy Colors™** Orange or Apricot only to the center part of the bracts.

12) Fantasy “Golden Splash”

- a. Products needed:
 1. Suggested poinsettia color: marble
 2. **Fantasy Colors™** Orange, Apricot or Yellow
 3. **Fantasy Colors™** Glue
 4. **Fantasy Colors™** Glitter Neon Salmon
- b. Directions:
 1. Apply **Fantasy Colors™** Orange, Apricot or Yellow evenly with a fine nozzle.
 2. After drying, apply **Fantasy Colors™** Glue evenly from a distance of 10-15 in./ 25-34 cm.
 3. Apply Neon Salmon glitter.

OTHER COLORS AND EFFECTS

13) Fantasy “Lilac”

- a. Products needed:
 1. Suggested poinsettia color: white
 2. **Fantasy colors™** Lilac
- b. Directions:
 1. Spray **Fantasy colors™** Lilac only once, evenly on the bracts. With this color, there will be a light golden glow in areas where the color is more concentrated.

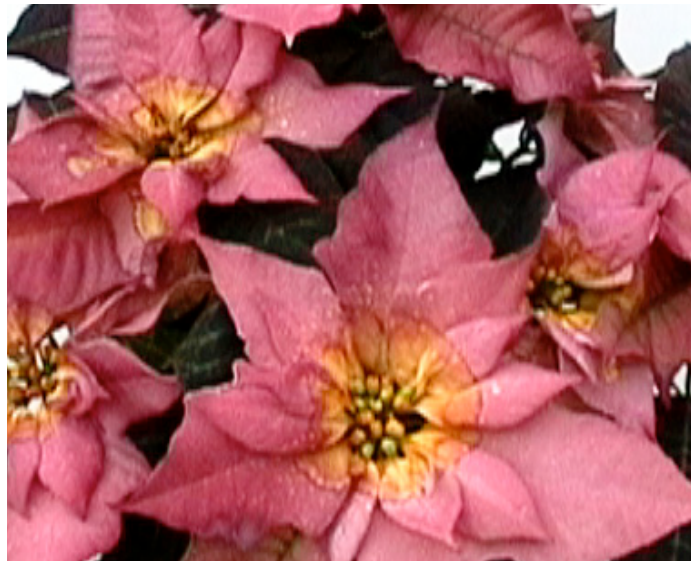

14) Fantasy “Fuchsia Ice”

- a. Products needed:
 1. Suggested poinsettia color: white
 2. **Fantasy colors™** Lilac
 3. Ethanol
- b. Directions:
 1. Apply **Fantasy colors™** Lilac evenly.
 2. Follow up with ethanol, sprayed more or less intensively to achieve the desired effect.

15) Fantasy “Fuchsia Star”

- a. Products needed:
 1. Suggested poinsettia color: white or marble
 2. **Fantasy colors™** Fuchsia
 3. **Fantasy colors™** Yellow (only in the center)
- b. Directions:
 1. Spray **Fantasy colors™** Fuchsia evenly on all white parts.
 2. After 15 minutes of drying, spray **Fantasy colors™** Yellow into the center parts and on to the cyathias from a distance of 1-2 in./3-5 cm.

OTHER COLORS AND EFFECTS

16) Fantasy “Fuchsia”

- a. Products needed:
 1. Suggested poinsettia color: white
 2. **Fantasy colors™** Fuchsia
 3. **Fantasy colors™** Glue
 4. **Fantasy colors™** Glitter Iridescent, Brilliant Gold or Silver Chrome, Neon Purple or Neon Fuchsia.
- b. Directions:
 1. Apply **Fantasy colors™** Fuchsia.
 2. After drying, apply **Fantasy colors™** Glue evenly from a distance of 10-15 in./ 25-34 cm.
 3. Apply glitter.

17) Fantasy “Brazil”

- a. Products needed:
 1. Suggested poinsettia color: white
 2. **Fantasy colors™** Turquoise
 3. **Fantasy colors™** Yellow
- b. Directions:
 1. Apply **Fantasy colors™** Turquoise by spraying large droplets. It is also possible to use a cotton swab.
 2. After spraying the **Fantasy colors™** Yellow, the blue and yellow will change to green.
 3. Apply **Fantasy colors™** Yellow from a bottle with a small opening, at the highest point of the bract, and it will highlight the veins of the bracts.

18) Fantasy “Tie - Dye Effect”

- a. Products needed:
 1. Suggested poinsettia color: white, light pink or marble
 2. Any of the 8 **Fantasy colors™** can be used
- b. Directions:
 1. Apply any **Fantasy colors™** by using a dropper or a flexible plastic bottle (water bottle) with an **extremely** small opening.
 2. Place a poinsettia on the floor, then using a dropper or plastic bottle and standing above the poinsettia, disperse **Fantasy colors™** from approximately 3-4 feet/0.9-1.2 m above the plant. This will cause the splashing effect once the **Fantasy colors™** drops hit the bract.

OTHER COLORS AND EFFECTS

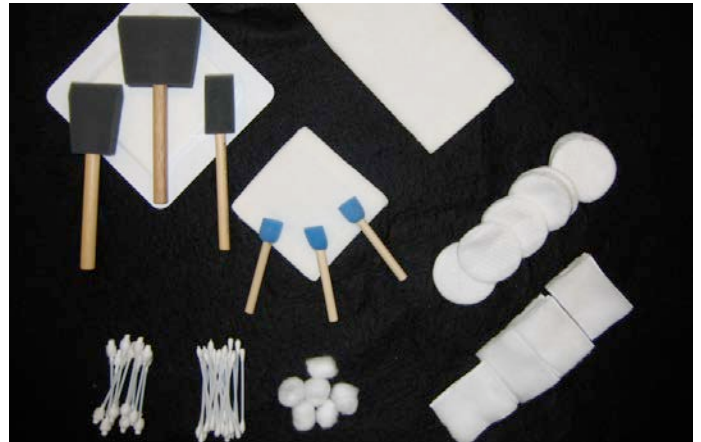

19) Fantasy “Striping Effect”

a. Products needed:

1. Suggested poinsettia color: white
2. **Fantasy colors™** Blue, Lilac, Fuchsia, Turquoise or Yellow
3. Ethanol
4. **Fantasy colors™** Glue
5. **Fantasy colors™** Glitter Iridescent

b. Directions:

1. Spray **Fantasy colors™** with any of above colors.
2. After drying, dampen your applicator (brush, sponge, rag) with ethanol and bring it down the center of the vein of the bract to release the dye. One or two swipes may be necessary **OR** add **Fantasy colors™** spray in the bract vein to provide striping effect.
3. Apply glue and Iridescent glitter.

Applicators for “Striping Effect”

OTHER COLORS AND EFFECTS

20) Fantasy “Confetti Effect”

- a. Products needed:
 1. Suggested poinsettia color: white or cream
 2. Any of the 8 **Faifasy Colors™** can be used in combination
- b. Directions:
 1. Apply a combination of **Faifasy Colors™** by using a dropper or a flexible plastic bottle (water bottle) with an **extremely** small opening.
 2. Place a poinsettia on the floor, then using a dropper or plastic bottle and standing above the poinsettia, disperse **Faifasy Colors™** from approximately 3-4 feet (0.9-1.2 m) above the plant. This will cause the splashing effect once **Faifasy Colors™** hits the bract.
 3. It is not necessary to have the **Faifasy Colors™** dry in between the application of the various colors you want to apply to the bracts.
 4. If desired, add **Faifasy Colors™** Glue and Iridescent Glitter

Follow the same directions as #20, and dab on small specks with brush tip or minute dropper

Market this idea for children, Gen Z, and New Year’s

*Note the retail price for a 6.5-in./17-cm pot!

SHIMMER DYES (RTU) *Shimmers are PRE MIXED with **Fantasy Colors™** RTU Dyes

21) Fantasy “Shimmer Dye Dark Blue”

- Products needed:
 - Suggested poinsettia color: white, cream or light pink.
 - Fantasy Colors™** Shimmer Dye RTU Dark Blue
 - Fantasy Colors™** Glue
 - Suggested Glitters: Dark Blue, Silver Chrome, Turquoise, Iridescent
- Directions:
 - Shake well before using. Apply Shimmer Dye RTU Dark Blue evenly.
 - After drying, apply **Fantasy Colors™** Glue from a distance of 10-15 in./ 24-35 cm from the object.
 - Apply glitter immediately.
 - Let dry for 10-20 minutes.
 - Clean glue spray nozzle with warm water.

22) Fantasy “Shimmer Dye Lilac”

- Products needed:
 - Suggested poinsettia color: white or cream
 - Fantasy Colors™** Shimmer Dye RTU Lilac
 - Fantasy Colors™** Glue
 - Suggested Glitters: Neon Purple, Neon Fushia (some people prefer a non-glitter look application)
- Directions:
 - Follow the same directions as #21.

23) Fantasy “Shimmer Dye Gold w/Ethanol”

- Products needed:
 - Suggested poinsettia color: red or burgundy
 - Fantasy Colors™** Shimmer Dye RTU Gold with Ethanol
 - Fantasy Colors™** Glue
 - Suggested Glitters: Brilliant Gold, Red Regal
- Directions:
 - Follow the same directions as #21.

24) Fantasy “Shimmer Dye Light Blue”

- Products needed:
 - Suggested poinsettia color: white or cream
 - Fantasy Colors™** Shimmer Dye RTU Light Blue.
 - Fantasy Colors™** Glue
 - Suggested Glitters: Silver Chrome, Iridescent, Dark Blue or Turquoise Blue
- Directions:
 - Follow the same directions as #21.

EFFECTS WITH GLITTER

25) Fantasy “Glitter Effect”

- a. Products needed:
 1. Suggested poinsettia color: red, white, marble, cream or light pink
 2. Your choice of **Fantasy colors™**
 3. **Fantasy colors™** Glue
 4. Your choice of Glitter: Silver Chrome or Iridescent
- b. Directions:
 1. Spray **Fantasy colors™** Glue from a distance of 10-15 in./24-35 cm from the object.
 2. Apply glitter immediately.
 3. It is possible to apply a second coat of **Fantasy colors™** Glue to improve adherence of the glitter. Let dry for 10-20 minutes.
 4. Clean glue spray head nozzle with warm water.

BallSeed®

Fantasy colors™

26) Fantasy “Christmas Sparkle”

- a. Products needed:
 1. Suggested poinsettia color: red
 2. **Fantasy colors™** Glue
 3. **Fantasy colors™** Glitter Red Regal
- b. Directions:
 1. Apply **Fantasy colors™** Glue evenly from a distance of 10-15 in./24-35 cm.
 2. Apply glitter.
 3. Let dry for 10-20 minutes.
 4. Clean glue spray head with warm water.

EFFECTS WITH GLITTER

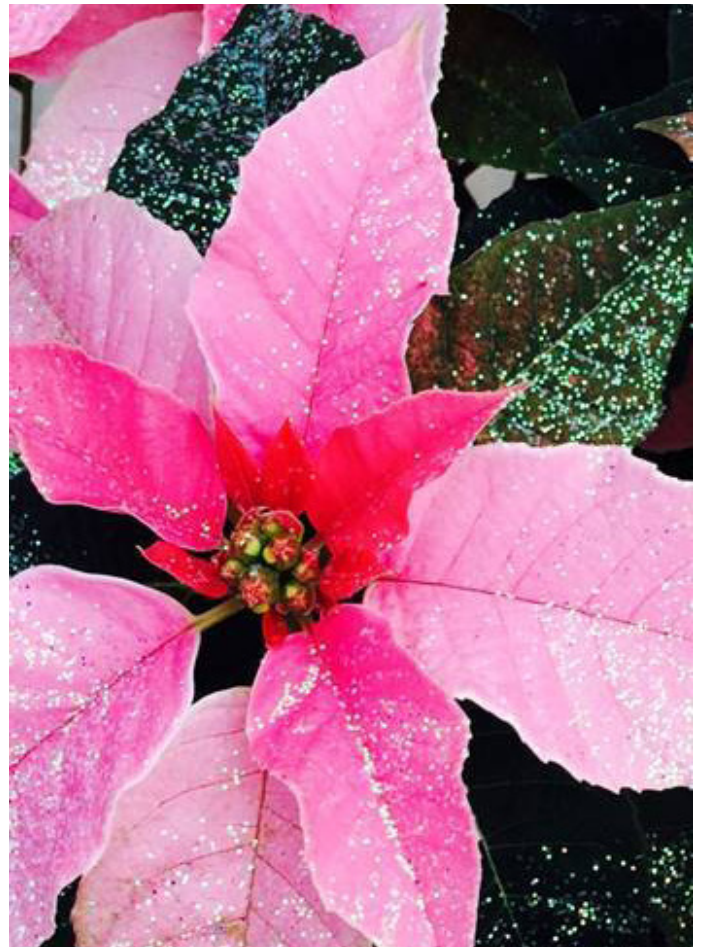

27) Fantasy “Gingerbread”

a. Products needed:

1. Suggested poinsettia color: red
2. **Fantasy Colors™** Glue
3. **Fantasy Colors™** Glitter Red Regal and Emerald Green

b. Directions:

1. Follow the directions from #26, using a mixture of 70% Red Regal glitter to 30% Emerald Green glitter.

28) Fantasy Baby “Pink Sparkle”

a. Products needed:

1. Suggested poinsettia color: Princettia Pink, J’Adore Pink
2. **Fantasy Colors™** Glue
3. **Fantasy Colors™** Glitter Blush Pink, Neon Pink or Neon Fuchsia

b. Directions:

1. Follow directions in #26.

29) Fantasy “Pink Sparkle”

a. Products needed:

1. Suggested poinsettia color: any pink
2. **Fantasy Colors™** Glue
3. **Fantasy Colors™** Glitter Blush Pink, Neon Pink or Neon Fuchsia

b. Directions:

1. Follow directions in #26.

EFFECTS WITH GLITTER

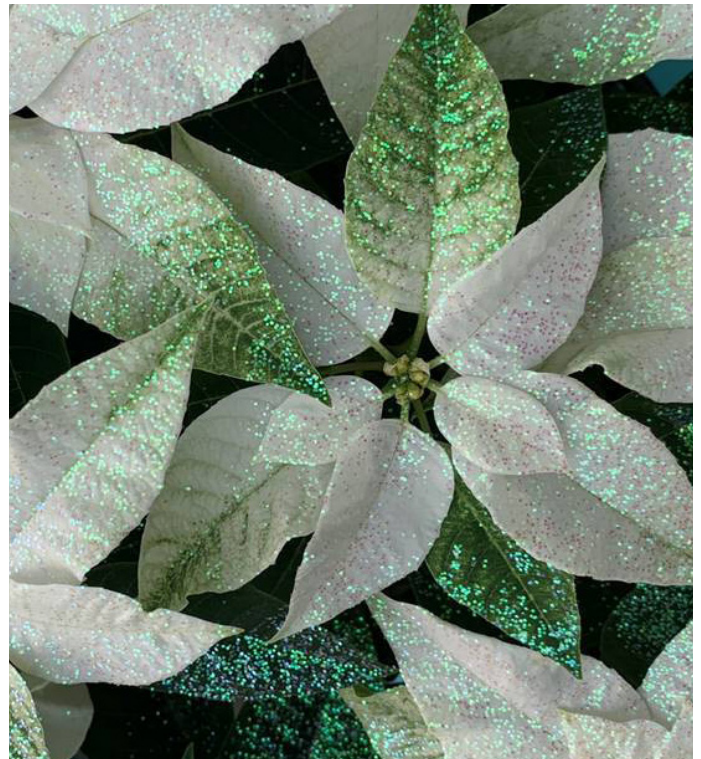

30) Fantasy “Neon Sparkle”

a. Products needed:

1. Suggested poinsettia color: Princettia Dark Pink, Luv U Pink
2. **Fantasy colors™** Glue
3. **Fantasy colors™** Glitter Blush Pink, Neon Pink or Neon Fuchsia

b. Directions:

1. Apply **Fantasy colors™** Glue evenly from a distance of 10-15 in./24-35 cm.
2. Apply glitter.
3. Let dry 10-20 minutes.
4. Clean glue spray nozzle with warm water.

31) Fantasy “White Sparkle”

a. Products needed:

1. Suggested poinsettia color: Princettia Pure White, J’Adore White Pearl
2. **Fantasy colors™** Glue
3. **Fantasy colors™** Glitter Iridescent

b. Directions:

1. Follow the directions in #26.

32) Fantasy “Burgundy Sparkle”

a. Products needed:

1. Suggested poinsettia color: any Burgundy color
2. **Fantasy colors™** Glue
3. **Fantasy colors™** Glitter: Plum

b. Directions:

1. Follow the directions in #26.

SNOW POWDER

33) Fantasy “Snow Flakes”

a. Products needed:

1. Suggested poinsettia color: most popular is red or marble, yet any poinsettia can be used
2. Fantasy colors™ Snow Powder
3. Fantasy colors™ Glue
4. Fantasy colors™ Glitter Silver Chrome or Iridescent

b. Directions:

1. Apply Fantasy colors™ Glue.
2. Apply Fantasy colors™ Snow Powder.
3. Apply glitter immediately.
4. Add another Fantasy colors™ Glue spritz to secure glitter.

Note: Fantasy colors™ Glue, Fantasy colors™ Snow Powder and Iridescent glitter can be used on rosemary trees.

Ball Seed®

We hope that you will be inspired by the examples contained in this booklet when designing your **Fantasy Colors™** poinsettias. With our new quick-drying **Fantasy Colors™** and your creativity, you can make something new and wonderful for your customers.
