2015-2016
**GARDEN
MUMS**

Baï Seed®

This time around, every variety is an Ed's Pick!

We evaluated many new garden mums for flower size and form (decorative, double or stacked petals), vigor, habit, color, uniformity of response and heat tolerance. Only the very best made the cut, ensuring outstanding performance in your fields as well as for retailers and landscapers. Add any or all of these stunners to your garden mum program for enormous sales come Fall!

Ball is the only supplier that can proudly offer you not only our product line, but also mums from Gediflora, Fides and Yoder. We offer you high-quality unrooted cuttings from our partners' facilities. We also have the ability to offer high-quality rooted cuttings from our exceptional rooted liner suppliers. And you can minimize your time sourcing your garden mums by working with your Ball Seed Sales Representative, a knowledgeable source about all of your garden mum options.

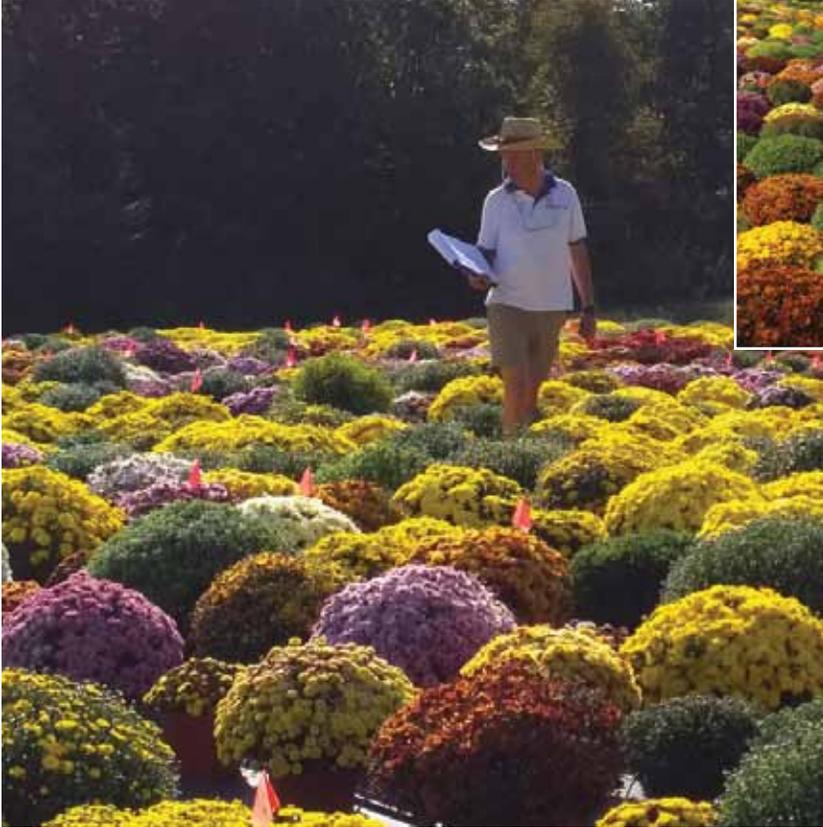

And you can always count on Ball Seed for the best customer service. We expanded our mum team and updated customer service training to provide you with expert assistance in selection, scheduling and garden mum culture.

Even now, we're testing and trialing more new varieties to help you expand your offerings. Read more about this on the next page...then check out your 2015 garden mums!

Meet Ed Higgins (front left) of Wadsworth, OH, your Ball "mum guy" for 9 years! Ed has introduced new garden mums to the industry since 1985 and evaluates every Ball Garden Mum in our North American trials. To contact Ed, email ehiggins@ballhort.com or call 330 256-3628.

Thoroughly Tried and Tested

Rob Noodelijk, Floritec: "Our vision is to bring mums to the North American market that are foolproof and tolerate a wide variety of conditions. We conduct our seedling trials under harsh conditions to ensure mums with staying power."

Wilbert Blom, Royal Van Zanten: "My focus is always on good color, uniformity, strength and reliable flower power. That means great shelf life for the retailer and good value for the landscaper."

What does a mum have to do to prove its worthiness for inclusion in the Ball program? Every variety goes through three years of intense, repeated scrutiny by our breeders in trials across North America. Only the very best make the grade and make their way to discerning growers like you!

Stellar Yellow

Stellar Yellow (PPAF)

Timing	Flower date	Black cloth response	Habit	Vigor
Mid	9/20	7 weeks	European	Medium/short

Medium yellow decorative is comparable in color to Grandeur Yellow, with superior uniformity. Like all Stellars, Stellar Yellow grows into an almost-perfect ball shape and flowers prolifically. Performs well throughout North America in both natural season and black cloth crops. Makes great combo pots with other Stellars.

Upgrades: Superior uniformity compared to Grandeur Yellow. Has not displayed pink discoloration around flower edges found with Jacqueline Yellow Improved.

	4"	6"	8"	10"	12"	½ bushel	H.B.
Natural season	X	X	X	X	X	X	X
Black cloth	X	X	X	X	-	-	X

Grapeberry

Grapeberry (PPAF)

Timing	Flower date	Black cloth response	Habit	Vigor
Late	10/2	7 weeks	European	Short/medium

Brilliant purple garden mum may be best-in-class for natural-season flowering! Upgrades all of the purples and bright pinks in the marketplace. Superb color even in Texas heat, classic growth habit and extremely prolific flowering. Great color in hot black cloth flowerings. Short treatment a must for black cloth schedules.

Upgrades: More uniform, more prolific, better flower form than Plum Crazy. Less vigorous than Wanda Purple, more prolific and better color retention than Venus Purple. Little to no fading compared to Magnus Violet.

	4"	6"	8"	10"	12"	½ bushel	H.B.
Natural season	X	X	X	X	X	X	X

COMING
2016!

Stellar Pink

Stellar Pink (PPAF)

Timing	Flower date	Black cloth response	Habit	Vigor
Mid	9/21	7 weeks	European	Medium/short

Medium to light pink decorative joins the popular Stellar family! Light pink but pleasing color in very hot environments like Texas. Has similar vigor and response as Stellar Purple, but has flowered a couple of days behind in our trials. Shares ball-shaped habit and prolific flowering response with other Stellers.

Upgrades: Provides a nice companion color to Stellar Purple, Stellar Red and Stellar Yellow in color combination pots. More prolific and uniform than Perfectly Pink and offers more aggressive vigor than Padre Pink.

	4"	6"	8"	10"	12"	½ bushel	H.B.
Natural season	X	X	X	X	X	X	X
Black cloth	X	X	X	X	-	-	X

2015

Orange Zest

Orange Zest (PPAF)

Timing	Flower date	Black cloth response	Habit	Vigor
Mid	9/25	8 weeks	Full mound	Medium

Outstanding flower color and color retention! Prolific flowering, excellent rain tolerance and long-lasting blooms for great landscape potential. Flowers close to Sunset Orange in what may be the biggest sales week in the Fall natural season, with opportunities galore to boost Fall sales. Fantastic color, even in Texas.

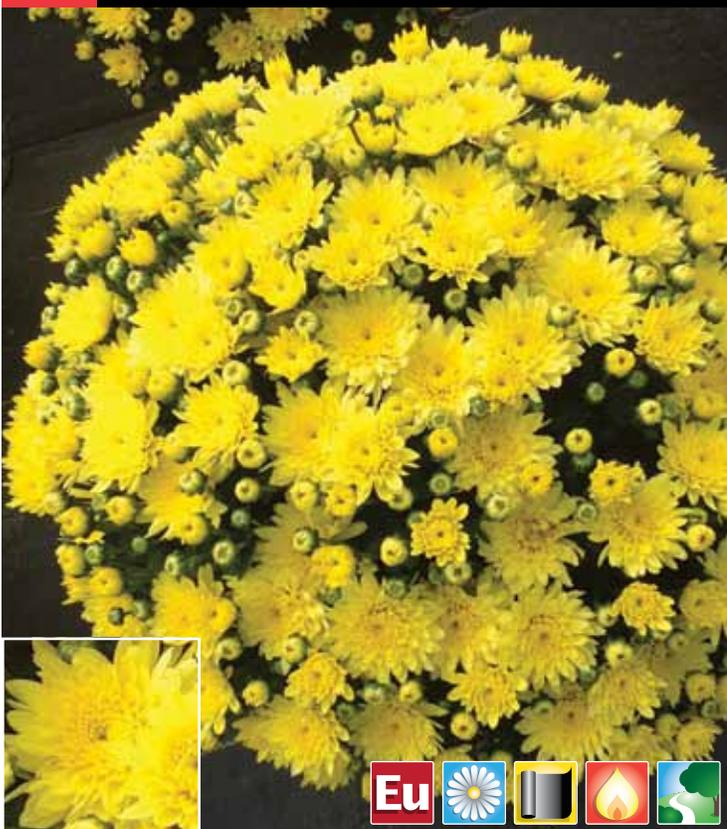

Upgrades: Much better flower color, flower form and color retention than Outrageous Orange. Flowers before Atomic Orange with much brighter color. Much richer flower color and better petalage than Petit Orange.

	4"	6"	8"	10"	12"	½ bushel	H.B.
Natural season	X	X	X	X	X	X	X
Black cloth	-	-	-	-	-	-	-

NEW
2015

Moonglow Yellow

Moonglow Yellow (PPAF)

Timing	Flower date	Black cloth response	Habit	Vigor
Early	9/17	7 weeks	European	Medium

Fresh, lemon-yellow decorative sport from popular Moonglow White. Flower color is in the range of Buttercup. Slightly less vigorous and may flower a few days behind Moonglow White. Performs well in both natural season and black cloth crops.

Upgrades: Provides a companion color to Moonglow White in both black cloth and natural season crops.

	4"	6"	8"	10"	12"	½ bushel	H.B.
Natural season	X	X	X	X	X	X	X

NEW
2015

Butter N' Cream

Butter N' Cream (PPAF)

Timing	Flower date	Black cloth response	Habit	Vigor
Late	9/27	8 weeks	European	Medium

Clean white decorative offers a hint of ivory in central petals of young flowers. Flowers after Celestials and Starburst and before Pearly White; easy to grow and size up. Develops a fine spherical, European growth habit. Delivers a solid performance in deep South natural season crops, but tends to be slow in hot black cloth flowerings.

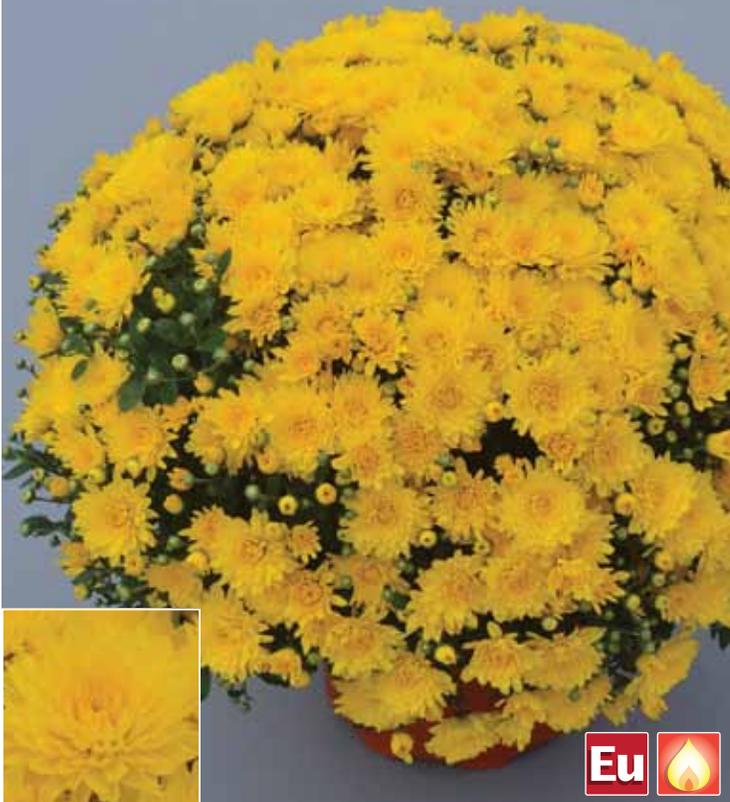

Upgrades: Offers larger flowers and superior uniformity compared to Crete. Provides a prolific and uniform white variety for late September sales in natural season. More prolific than most white varieties in its flowering season.

	4"	6"	8"	10"	12"	½ bushel	H.B.
Natural season	X	X	X	X	X	X	X
Black cloth	X	X	X	X	X	–	X

2015

Gold Cup

Gold Cup (PPAF)

Timing	Flower date	Black cloth response	Habit	Vigor
Mid	9/26	7 weeks	European	Short

Golden yellow decorative in the range of Yellow Tang or Goldmine. Well-petalled flowers grow up to 2 in. Develops into a fine spherical plant with excellent flower counts. Solid performance in deep South/Texas natural season crops. Vigor is similar to Yellow Tang and should not require growth regulators.

Upgrades: Offers far better uniformity and more spherical growth habit than Eureka. Less aggressive and more uniform than Dandelion Wine.

	4"	6"	8"	10"	12"	½ bushel	H.B.

Blooming Beauty® Collection

Spring-Blooming Small Pots

This group of 4 varieties bred by Royal Van Zanten has been used in Europe for small pots in Spring flowerings and Summer black cloth crops. They are all produced with “no pinch” culture in Europe and offer the same potential for North American greenhouse production. Based on our North American trials, the Yellow, Purple and Red show the best potential for black cloth crops, and importantly, for natural season production.

Uses: Try in 1801 trays, 6-pack handle baskets, 3 and 4-in. pots and 5-in. pans. Red has excellent potential for use in 6-in. pots in black cloth as well. Red, Yellow and Purple have made terrific European-style plants in 8 and 10-in. pots in Fall natural season crops.

2015-2016 Ball Garden Mum Usage

Garden mums are extraordinarily versatile. All garden mums perform well in their natural Fall season. Use the chart below to see, at a glance, the most popular crops for each variety.

Guide to Using the Ball Garden Mum Variety Chart

Use the "Flower date" column to put together a natural season program. NOTE: Bloom dates shown are average flowering dates (half-open flowers) for Eastern and Midwestern regions and represent the time when flowers are at Stage 3 (see photo on facing page). Actual bloom dates will vary by geographic area. Since dates are relative to each other, growers can sequence the varieties for production.

Use the "Black cloth response" column to put together a Summer black cloth program.

Need a substitute for a natural season program? Select a variety with a similar bloom date. For example, if you need a substitute for Starburst White, Celestial White works well because it is also a white decorative and blooms two days later.

Need a substitute for a Summer black cloth program? Select a variety with a similar "Black cloth response" number. For example, if you need an option for Grandeur Red, both Red Hots and Stellar Red will work well since they are both red decoratives with a 7-week response time. When working with black cloth crops, please be sure the variety is suitable for use. Refer to variety copy in the 2014-2015 Ball Garden Mum Catalog.

Late 9/27 to 10/5

Flower date	Variety	Black cloth response	Flower form	Vigor
Sept. 29	Dandelion Wine	7 weeks	Decorative	M/T

A Note on Flower Dates

Ever wonder what "flower date" means? The plant on the right gives you a visual of what "flower date" represents. The flowers are fresh – not too open, not too tight, approximately at the 50% open stage of development. If you are a wholesale grower, you likely ship around Stage 1, represented by the plant on the left. These plants are "shippable" approximately 7 to 10 days prior to our "flower date."

Stage 1 (Cracking Color)

Stage 3 (Flower Date)

Fun with Mums

Home gardeners like to mix it up, so we've found varieties that play nicely together and with other Fall crops. Give these combos a try and see if they inspire you to create a few of your own.

Be sure to keep the Avalon family of garden mums in your program. Their beautifully mounded habit, large decorative flowers and excellent color retention finish up the Fall season with flair. And they pair perfectly with late-season annuals and perennials.

Flamingo Pineapple and Neon

Flamingo Pineapple, Neon and Cranberry

Avalon Orange and White

Avalon Yellow, Orange and Red

Jessie Feuerbach, Chrysanthemum Trials Coordinator, keeps an eye out for the hottest trends in mums — like this colorful combo!

Set Landscapes Ablaze with Color

These prime performers are sure to drive repeat sales! We select our garden mums to last longer and later in the landscape, with attractive mounding habits, fantastic flower counts and rich, saturated color.

Best for Landscapes:

- Adonis Purple
- Atomic Orange
- Avalon Pink
- Avalon Purple
- Blazing Orange
- Emberglow Orange
- Eternal Red
- Flamingo Cranberry
- Flamingo Neon
- Flamingo Pink
- Gold Rush Yellow
- Honeyblush Yellow
- Katelli Bronze
- Katelli Yellow
- NEW** Grapeberry
- NEW** Orange Zest
- Purple Majesty
- Radiant Red
- Red Hots
- Red Ryder
- Starburst White
- Sundance Yellow
- Sunny Day Yellow
- Sunset Orange
- Yellow Tang

Monochromatic groupings are a landscaping classic.

With so many colors, you can get creative with patterns.
