Spring-flowering
Opera is available in
vivid flower colours.

Opera Debora Matthiola

PanAmerican Seed™

**NORTHERN GREENHOUSE
SELECTABLE MATTHIOLA**
M. incana

Opera Series

Location: Greenhouse

Stem length: 32 in./80 cm

**Supplied as raw seed with 80%
minimum germination standard.**

Bred for optimal performance in cooler greenhouse conditions, the Opera series offers a wide range of vivid flower colours. Recommended for Autumn to late Spring-flowering, production of this fragrant favorite is possible year-round if cool Summer temperatures are maintained in the greenhouse. Opera partners well with the Aida, Carmen and Figaro series to offer an outstanding lineup of greenhouse-grown selectable Matthiola varieties for year-round production. Transplanting for seasons earlier than listed will result in later flowering.

Greenhouse-grown Matthiola are distinguished from field-grown types by the softer green leaves. NOTE: Selectable Matthiola will produce approximately 50% double-flowering types, but it is easy to select out the single-flowered types at the young plant stage. Refer to the PanAmerican Seed Product Information Guide for details.

Aida 2603 White.

Blueberry 225195 Unique blue colour.

Daphne 2600

Debora 2623

Francesca 2629

Leonora 2631 Purple.
