

Tower of Power for Urban Landscapes

Black Tower

Sambucus Black Tower's incredible black foliage is ideal for modern and contemporary urban landscapes. Its full, dark color develops as the Summer season progresses. It can be used as a tall, bold perennial in the border by cutting it back to the ground each year, or use with close spacing for a dense screen.

"This unique plant pops with striking dark foliage and a tall, columnar habit. Unlike most Sambucus varieties, which grow huge and unwieldy, Sambucus Black Tower has a great human scale and proportion.

"Best of all, it's TOUGH AS NAILS!"

- Matthew Boyd,
Midwest and Northeast Sales Consultant

SAMBUCUS 

(ELDER)

S. nigra

Black Tower 'Eiffel01' PP23,633

Height: 6 to 8 ft. (1.8 to 2.4 m)

Spread: 3 to 4 ft. (0.9 to 1.2 m)
