

Loves Heat, Lives Durably

Shorty

One of the smallest shrubs of its kind on the market, Shorty's compact habit makes it ideal as a screen or foundation plant. And its bright evergreen foliage is a striking focal point in any landscape. Drought and heat tolerant, the compact Shorty also makes a great container plant.

CUPRESSOCYPARIS ☀

(LEYLAND CYPRESS)

C. leylandii

Shorty 'Reco' PP19,618

Height: 6 to 7 ft. (1.8 to 2 m)

Spread: 3 to 4 ft. (0.9 to 1.2 m)

Zones: 6 to 8b

This heat-loving conifer is the life of the party in the Southern U.S.

Completely new dwarf habit and unusually deep green foliage

Now even more uses for today's small-space gardens and balconies
