Cut mums are a great fall crop for extended sales after dahlia season ends.

Basic Growing Instructions

- ⇒ Plants should be grown in a high tunnel for protection from frost when they are at their peak bloom.
- ⇒ Northern growers with early cold weather may want to use the Early varieties.
- ⇒ Plants should be planted upon arrival.
- ⇒ Pinch the plants three weeks after planting. Leaving six leaf nodes, resulting in six stems per plant.
- ⇒ Early, Mid, or Late bloom time is listed on each photo.
 - 14 **Early** varieties that start blooming Oct 19 -21
 - 22 **Mid** varieties that start blooming Oct 24 - 30
 - 27 **Late** varieties start blooming Nov 3 - 8(Based on Zone 6b, SW Virginia)
- ⇒ Space two plants per sq foot.
- ⇒ Support netting is required.
- ⇒ Fertilize with 20-10-20 At 200ppm N
- ⇒ Scout for aphids and white flies. Treat as needed.
- ⇒ Side disbudding not required, but will produce one large bloom on double flowered varieties, especially with Shanghai Red and Golden Gate.

NOTE: All varieties are Patented. Propagation is prohibited. Growers may not root additional cuttings.
