*Unex Inc. bare root
perennials & flower bulbs*

Unex Inc. started as a Dutch family business in 1976

Since 1976 the goal is to supply the North American market with high quality perennial roots and flower bulbs.

Carefully selected offer

As one of the leading Dutch exporters, we supply high quality bare root perennials and flower bulbs, which are grown and cultivated in The Netherlands for the North American market.

We work as partners with our growers and customers and strongly believe in long term relationships.

Reliable delivery

With our experience in international transport and transport regulations we have developed a reliable solid supply into the North American market. In addition, our two locations, one in The Netherlands and one in The United States, support our need for a reliable storage before delivery.

Our clients

Unex Inc. offers a complete listing for: Growers, Retail, Landscape Growers, Mail Order, Garden Centers and Municipalities & Parks.

Hosta

Hosta root

Information

(Funkia)

Hosta is still one of the most popular perennials for the garden. Green or yellow varieties in general tolerate the direct sun somewhat better, where blue and variegated varieties prefer more shade.

Paeonia

Information

Paeonia root

(Garden Peony)
 Great perennial for container and cut flower production. Roots can be planted in fall and/or spring. Itoh Peony varieties are perfect landscape and container varieties.
