

#52

Cabaret® Calibrachoa is a great plant for so many reasons - not only does it grow into a beautiful, cascading mound in containers and hanging baskets, but it tolerates a wide range of conditions. It will continue to bloom in hot and cool temperatures, making it the perfect low-maintenance plant for every season. Be sure to replace the nutrients that leak out of the soil during watering by feeding every few weeks with an all-purpose fertilizer.
