

# Brocade Gloxinia

- Plant in Partial Sun ☼ (at least 3 hrs of sun)
- Grows 13-18cm tall by 18-20cm wide
- Brocade is best suited for 4-5 inch/10 -12 cm pots. Plant the seedlings down so that the first set of "large" leaves is level with the media. Use care not to break off smaller leaves as it may invite disease. Drench with a broad spectrum fungicide after transplanting.

(Cut along dotted line for standard bench card size.)
